DECEMBER 13, 1887 THE PUBLIC BUILDING.

A Washington dispatch says: "Representative Morrow will, when an opportune moment arrives, introduce a bill in the House to increase the amount of the appropriation for the purchase of a site for a public building in San Francisco to \$850,-000. Senator Stanford, being Chairman of the Committee on Public Buildings and Grounds, will probably take the initiative in securing an increase of the appropriation to-morrow." Sacramento ought to be very prompt to present her claims also, for an increased appropriation for the public building already ordered erected. The site has been selected, paid for, and the deeds delivered. But greater ground space is needed, and is available. The sum left after the purchase of the present site is wholly inadequate for the erection of the building needed. If we wait before asking for a greater sum until our Legislature passes the necessary Act of cession, no steps nearly four years clapse between the passage of the original Act and the commencement of the work.

But if the local authorities and influ-entered into the new compact with Gerences will act now, and make the proper many the Czar has thrice manifested his representations, doubtless Senator Stanford annoyance over the fact. THREE WEIGHTY MEASURES. The dispatches announce that Senator

Stanford has introduced his bill to aid and encourage the co-operation of labor, and provide for the formation of labor co-operative associations. There is every reason for the measure, and not one against it that can maintain its footing. Simply and plainly, it is a proposition to extend to labor the same right to associate with itself under the law in industrial enterprises that is given to capital. It pro poses to put labor co-operation upon such a firm basis that it shall be something more than a co-partnership, and that individual rights in it may be maintained in such associations regardless of the withdrawal of some of the participants.

The Senator has also introduced bill to augment the naval defenses of the coasts of the United States, and to better equip our navy with guns and mortars. It will scarcely be contended, by even the most ultra of peace advocates that such a measure is not wise; or that it is not in keeping with the state and dig nity of such a nation as ours, to say nothing of the teachings of ordinary caution. The United States should better fortify her ports and improve her coast defenses not in fear of war, or in anticipation of as sault, but in the interests of peace and economy. A nation well prepared for emergencies prevents them; the country that decently equips its navy and its forts, commands respect from others who measure strength by what they see of prepared means for defense.

A third measure the Senator has introduced has already been referred to in thes columns, and is not less in importance than the others, but may reasonably be expected to create more debate and arouse greater antagonism than both the former. Any proposal to reform the naturalization laws will awaken public attention and excite wide debate. It is probably anticipated by the mover that the measure will arouse much antagonism; it is scarcely possible not to expect it. But we believe that the great mass of the thinking people of the nation are in harmony with the views of Governor Stanford on the question, and favor such enlargement of the probationary term for aliens, as will place native and foreign probationers upon a more equal footing as regards time tests of fitness for investment with the rights and powers of American sovereignty.

DECEMBER ORANGES TO THE SOUTH.

Thirty thousand oranges from Placer county will be shipped to-day to Los Angeles, where they will be put upon exhibition to convince strangers that the HUNGARIAN ORCHESTRA claims of the northen and central citrus regions have not only not been exaggerated, but that the truth justifies far stronger statements than have been made The chief end to be secured, however, by this movement, is the refutation by occular proofs of the outrageous libels of such journals as the Los Angeles Herald. When the shipment is put upon exhibition we shall expect to see in that journal a declaration that the oranges were purchased in Southern California, and are palmed off as northern products. And this, regardless of the fact the southern crop is not yet in condition to be gathered, be more than a purgative. To be permanent, it must contain nor will it be for several weeks to come. If that story will not serve the purpose of those who continue to indulge in the back alley policy of misrepresentation, there need be no surprise expressed to hear in its stead the fiction that the Placer oranges were raised in To the bowels their natural peristaltic motion, so essential to regularity. hot houses. University Park,

Near the Leland Stanford Junior University at Palo Alto,

FOR SALE.

A TRACT OF BEAUTIFUL OAK PARK land, immediately opposite, and practically adjoining the grounds of the Leland Stanford Junior University at Palo Alto, has been subdivided into villa blocks, comprising about five acres each, capable of subdivision into twentyfour ample building lots, and is offered for sale t reasonable rates, and upon reasonable terms by the block, half-block or quarter-block. The and has been subdivided in the mest artistic manner, with broad avenues intersecting each other at picturesque angles. The Middlefield road, upon which is built the Menlo Park villa of J. C. Flood, Esq., and other beautiful residences, has been extended through the entire tract, and constitutes the main avenue of the property hereby offered for sale. Each block has a frontage of 1,800 feet upon the streets or avenues, the blocks being 500x400 feet. The great majority of the blocks are covered with a beautiful growth of live and other oak trees. The land itself is extremely rich, being free from

alkali or adobe, and capable of producing all semi-tropical and temperate fruits. Notwithstanding no public announcement o the subdivision and the offer of sale of these blocks has been made, twenty-four blocks have already been sold to intending residents, comprising several persons from abroad, who desire to reside near the great University for the purpose of enjoying the educational advantages it will afford. The land in question occupies the nearest possible position to the University. Artesian wells, with the most copious flow of water, may be seen on the lands immediately adjoining the tract in question. Water works, which will supply the University and the great Palo Alto farm, will be extended over the tract. Until further notice the land may be pur hased at the following schedule of prices:

Quarter-blocks, \$1,000 each. Half-blocks, \$1,800 each. Whole blocks, \$3,500 each.

Terms of payment-One-fourth cash, with 7 per cent. interest on deferred payments, payable aunually in advance; balance of principa payable at the end of two years. These villa lots and blocks will be sold at private sale only, and purchasers who eventually ntend to improve and reside upon them are preferred. The owners reserve the right to advance the price of all blocks not sold on or be-

fore the 1st day of January. Maps and plats of the grounds, with the names of those who have made purchases to the present date, may be seen at the Land Office of the Central Pacific Railroad Company, room 66, Fourth and Townsend streets. For further information address or apply to WM. H. MILLS,

Land Agent Central Pacific Railroad Co.

FOR \$6,500.

ACRES OF FINE MEADOW, ORCHARD and vineyard land, situated at the head of Kentucky Flat, with good two-story house, 20x40 feet, on one place, and a fair dwelling on the other, a large and small horse barn, a large cow barn and cattle sheds, poultry house, blacksmith shop, carpenter shop and wine cellar. On the public road to the Ridge and Marysville, four miles from Grass Valley. There are fifteen or twenty living springs, and a ditch traverses it high enough to irrigate half the land. One hundred fruit trees and 2,000 old bearing vines, from which over 1,100 gallons of choice wine was made last year.

With the place goes a mowing machine, a horse-rake, a grape-crusher and wine press, about 1,000 gallons wine in cellar, four casks of vinegar, two sets of carpenter's tools, blacksmith tools and lot of mining and farming tools, four lorses, four cows and several head of young cattle, a heavy and a light wagon, good and in good order, two sets double harness, two saddles. Also, fifteen or twenty tons of hay in the barns, and a lot of cedar posts and pine shakes, new. The fences and buildings all in good order and condition.

There are 4,000 cords first-crop oak and pine wood standing on the place—more than enough to pay for it if cut and sold.

This is a bargain seldom found, and is so offered because the widowed owner cannot managed it.

We have received in the past week over 300 ECLIPSE STOVES, which we offer at the remarkable low figure of TEN DOLLARS EACH. This is for the STOVE ONLY. Perhaps few understand how we can sell A NEW NO. 7 COOK STOVE at this price-one we can guarantee to be FIRST-CLASS in all details. Our reasons are these: We sell these Stoves a little above cost in order to advertise our house, knowing that whoever gets one of these ECLIPSE STOVES will be sure to throw their further patronage to a house like ours, which can give such bargains. Below is a splendid cut of this

NO. 7 ECLIPSE.

Over 1,100 of these Stoves sold by us in the past year, and we have yet to hear of one complaint. 'The ECLIPSE has the new mottled finish, ventilated oven doors, sliding hearth and open broiling door-in fact, all that is needed in a GOOD COOK STOVE. Remember, it costs ONLY TEN DOLLARS. Now is your time. Crockery, Glassware, Tinware, Platedware, Cutlery; in fact, our house is the most complete in its line on the Coast. Our Price List is now ready.

A POSTPONEMENT ASKED. A petition was received from A. Schaeden R. Stanton, Sol. Nathan, J. Hyman, C. H. Krebs, G. W. Booth and others, requesting that the grading of Sixth street from the alley between L and M to N streets be postponed until next spring. The reasons given were that the rainy season was now at hand and the work could not be done in a substantial manner and also that it would be very foolish to leave the half block from L back to the alley ungraded. The Board thought that very good reasons had been given, and they accordingly

The City Attorney, therefore, adsed the Board to canvass the ballot and declare elected those whom the returns showed had the highest votes. The market proposition, he said, could be submitted to ture, at the discretion of the Board.

Messrs. Richardson and Nevis appeared

and requested that Twenty-second street, from Q to Y, be graded, and also S street, from Twenty-first to Twenty-second. The matter was referred to the Street Commis-After allowing a number of bills and

Police Court. The calendar in the Police Court yesterday was about the usual one for the beginning of the week. Few of the cases were tried, which fact will greatly increase to-day's calendar. Mrs. Hammond, Charles Hammond, Sam Mouton and Marie Regal, all charged with disturbing the peace, had their trials set for to-day Louise Morin, booked for battery, also had her case laid aside until to-day. Martin Denis forfeited his deposit for being drunk. Joe Smith and Bob Edmondson, arrested for filling up with some beer and poor whisky, were discharged. Young Hop. charged with assault with a deadly weapon, and Ah Jung, booked for battery, will be tried to-day. The case of battery against John Doe was dismissed for want of prosecution. Geo. Nelson was found guilty of petit larceny and was sentenced to pay a fine of \$30. or in default of payment the usual alternative. The case of petit larceny against Frank Bronson was dismissed. Tong Ock will be tried to-day on Patrick James Carroll, Patrick Henry Hana charge of burglary.

The Sacramento School of Design closes its second year this week. It has the work of the pupils will probably be held Thursday evening, if the pictures can be hung by that time. No medals or decorations will be awarded, it being deemed best not to do so in this stage at least of the school's history. The general progress has been so gratifying, says the management of the school, that it is held not wise to single out any one for special mention. In this connection it should be stated that in the recent review of work of pupils, the RECORD-UNION reporter omitted his notes of the drawings of Clara Robinson. Her work was examined and note of it made, but in the several visits necessary the memorandum must have become miscredit. It is administered by the imposition of the Bishop's hands and by anointing the forehead of the recipient with chrism. Confirmation is one of the three sacraments which, according to the Catholic faith, impress a distinguishing and ineffaceable mark or character on the soul, and it can be received only once. The form pronounced by the Bishop is: "I sign thee with the sign of the cross; I confirm thee with the sign of the cross; I confirm thee with the chrism of salvation, in the name of the Father," etc., after which he gives the person confirmed a gentle blow on the cheek to remind him of the hardships he will have to encounter as a chosen follower and soldier of Christ. Another thing: If there is some one here making the acquaintance of newcomers, and endeavoring to steer them off o Santa Clara and the southern section, isn't it about time our citizens awake to their own interests? How do we know that other localities have not their secret agents right here in our midst? It looks very much that way.

MANHOOD.

Dr. C. C. Vanderbeck.

An Interesting Lecture to Young Men by A large audience of young men were months. City Attorney Hart filed a written opinical on the question of the validity of the control of the question of the validity of the control of the control of the validity of the control of present last evening at the opening lecture notes when quoting a paragraph from some medical authority. C. M. Campbell presided, and after a few preliminary remarks good wages, full diet, cleanliness and pure northerly winds and clearing weather preair as vital factors in gaining these ends vailed. among a given class. Of what value is a young man without health? What is wanted now is brains, plus backbone. I do not want a sickly, sanctimonious Christian, but a healthy, muscular one. Many men have erroneous ideas of manhood. A typical man, is a healthy man, in mind and body. It is difficult to define what health is. It is a feeling of buoyancy, no pain, not conscious of any internal workings, or, in fact, of any function. Such men are rare, by reason of heredity or by reason of our own errors, neglect and willful damage. It is not sinful to have passion; but we must control it, and it can be done The speaker here gave a rapid sketch of ancient hygienic laws, showing that at the present day there is a much greater regard for human life than ever before, and reerring in eulogistic terms to Florence Nightingale's work as greatly tending to a better understanding of the laws of hygiene and an improved manhood in the British army. The doctor urged young men to live generously, but not luxuriously, and couted the idea of a ten-cent a day diet. The scientific hygiene of to-day says you nust eat, and eat well, to meet the require nents of a standard manhood. Do not nowever, be a glutton. Again, a man may eat at night without injuring his system, it e feels the need of it. A man may have too much flesh air, as well as too little or too much exercise. We need to guard against these errors, and exercise common sense. To develop manhood the gymnasium was recommended, but not too much of it. Don't watch for symptoms of disease. The remainder of the lecture was especially to young men, but the doctor's remarks were so sound and practical that they were well worth hearing by every young man in the city. His address was full of apt illustrations, and he was frequently interrupted by applause. At the close the hall was cleared for gymnastic exercises, and an hour spent

in athletic sports. Next Monday evening Hector, the colored orator, will occupy the platform. His lecture will be open to both | El Dorado county.
